

GIVE US YOUR BEST SHOT

Here's How to Export a High-Quality Photo from Your iPhone

- Open the Photos App
- Select your photo and tap the share button
- Select "Options" on the top left
- On "Options" screen scroll down and turn on "All Photos Data" (The toggle should be green)
- Press done and go back to Share screen
- On the Share screen scroll down and tap "Export Unmodified Original"
- This will allow you to save the image to your Files or iCloud Drive. You can Airdrop or email it from there.
